Dear racer,

we are writing to you to ask for your help. As most of you know we have a limited area for pitting of your vehicle and we normally have to squeeze everybody in and make best of what we have. It is therefore essential that you give us your exact width and length dimensions so we can try to plan it as properly as possible, please make the effort to measure your combination so that you can give us the exact measurements, if possible we would like to receive a drawing from you. **There will be an area of 6 metres wide and the length of your race car transporter (MAXIMUM 12 metres) included in your entry fee.** Those of you who have a wider combination may not be able to use your awning at the Hockenheimring and we advise you to make contact with us a minimum of 4 weeks prior to the event to see if we can sort something out.

Thank you for your help.

Which picture describes best your tow vehicle combination:

Looking from behind of your vehicle what side do your awning come out on?

Left-hand side       Right-hand side       Behind the trailer

Other important information relating to pitting:

**required electricity:** (has to be paid together with the entry fee)

- single phase (220 V)      120,- €
- triple phase (380 V)      190,- €
